Mental Health Carers Tasmania and Flourish invite mental health consumers and families, friends and carers to a forum on

Improving the integration of mental health services in Southern Tasmania

This feedback session is an important update about the current status of the work of the Southern Tasmanian Mental Health Integration Taskforce.

*Flourish* and Mental Health Carers Tasmania asked for this update from the Taskforce Chairperson (Dr) Aaron Groves, who is also Tasmania’s Chief Psychiatrist.

Better integration of Mental Health Services in southern Tasmania was a Liberal 2018 State Government election commitment towards better mental health care. An expert taskforce of around 40 people, including carers and consumers was convened to provide advice on improving integration, including service providers, peak organisations and consumer and carer representatives. Additionally, a broader group of consumers and carers were consulted.

Aaron has recently submitted his report to the Tasmanian Department of Health and Human Services.

MHCTas and Flourish members and staff attended a consultation in July 2018 at Rydges.

You are invited to come along to hear about the work of the taskforce and to continue to provide input.

Thursday 4th July 2019 (4-7 pm)

Rydges, 393 Argyle St, North Hobart
